Step-By-Step Instructions:

1. **Put Your Name On The Bottom Of The Cup.**
2. **Decorate The Cup**
& Draw Your Pets Face:
Check out the example sheets.
3. **Ask The Helpers For Soil,**
Seeds, Worm Castings & Water.
4. **Put On The Lid:** A lid stops messes on the way home.
5. **When You Get Home:** Place the cup in a sunny position. It can't be where it will get rained on or it drowns the seed.
6. **The Next Day:** Water your pet with a quarter of a cup of water - about 3 Tablespoons, or 60ml.
7. **After:** Water lightly as required to keep the top moist until the seeds all sprout. Usually about 1 Tablespoon of water a day. A clean spray bottle is a great and fun way to add water slowly. When your pet's hair grows (about 2 weeks) you can give them a hair cut and style!
8. **Recycling At Home:** The lid can go in the recycling bin.
